### Installing Software from the Text Book

1. Your book should come with a CD in the back or attached to the book. If it does not include a CD, your book will include a CD key.
2. If you are using a CD, please insert the Disc into your computer's CD drive and follow the install instructions. Enter the CD-Key , that is in the same place where you found your CD.
3. If there is no CD, go to website as designated in the back of the book and follow the instructions there. Enter the CD-Key when prompted, it is in the back of your book as well or attached in an envelope.
